

# MY DAILY CELLO PRACTICE PLAN

PREPARED BY OLGA REDKINA

1

## Practice open strings

Every time you start your practice! For the beginner, this will be one to two minutes for each string.

2

## Practice scales

Every time! Start at chapter 3 through chapter 4 and when you advance, move on to chapter 5.

3

## Practice an etude

See "Fundamentals 1," in chapter 7 as well as "Lesson 2: Etude 1," which will help you count and learn how to change strings. When you become comfortable in changing strings, choose another etude in chapter 7, lesson 4. Additional exercises for the right hand can be found in chapter 2, lesson 5, in developing bow-changing technique.

4

## Choose a song

An example is in chapter 7, lesson 3. Once you master it - pick another one.

5

## Enjoy your practice!
